HOSHIZAKI

- Install the sushi case properly in accordance with the instructions on location, water supply/drain connections and electrical connections stated in the instruction manual provided.
 Allow 10mm extra space at the installation site to meet any installation requirements (additional spacing is also required for proper air flow and pipe connections).
- 2. Relative humidity exceeding 60% may result in excessive condensation on the exterior.
- 3. The food temperature is controllable by turning over the food mounts.
